GUIDE TO HOSPITALS AND PHYSICIANS

March 2022

In the event of a medical emergency, you should dial the national Contact Center 808 24 2424 for urgent advice or dial 112 for an ambulance (ambulância). Alternatively, you can make your own way to the emergency department of your nearest hospital. There are public and private hospitals in Portugal.

Public hospitals are part of healthcare offered by the SNS (Servico Nacional de Saúde, the Portuguese National Health Service). The SNS healthcare is residence-based and can be accessed by all legal residents. It is entirely free for persons under 18 and over 65s and it is vastly subsidized for health treatment.

Legal residents must present their Portuguese SNS health card on any visit to a health center, hospital, or any other health service.

Non-Residents (tourists) can access an emergency room in a public hospital. However, they are required to show a health insurance that covers health expenses overseas or you must pay for all medical expenses.

We recommend that US citizens carry private health care insurance when traveling or living overseas because U.S. national coverage does not protect them.

There is a wide range of medical specialists in public and private health facilities in Portugal. The public entity that licenses, regulates and oversees all medical practitioners is the Medical Board of Portugal (Ordem dos Médicos). It is also responsible for the standards of training for all postgraduate medical students and confers clinicians with a specialist degree.

https://ordemdosmedicos.pt/

For information on the medical specialists and services available in each hospital, please follow the hyperlink of the hospital’s websites displayed on the following pages.

For your convenience, the Embassy organized a list of public and private hospitals and clinics. If further clarification is required, please contact the U.S. Embassy at Av. Forças Armadas, 1649-044 Lisboa; Telephone: +351 21 770 21 22; email: conslisbon@state.gov
