Pre-Solicitation Notice – Chapel Structural Tests and Reports

Solicitation Number: 19P05020Q0002

The Embassy of the United States of America in Lisbon requires geotechnical and stabilization surveys, tests, and procedures to be performed by an independent third-party agency (Monitoring Contractor) to document existing movement and deterioration to existing load-bearing structural elements to include, but not limited to unreinforced and reinforced masonry building walls, site walls, and terraced gravity and cantilevered-type retaining walls of a 17th Century Chapel Building located inside the Embassy Compound.

Only companies specializing in this field of work should apply for a solicitation package.

Please be advised that firms need to be registered in the System for Award Management (SAM) www.sam.gov before the contract is awarded. If you require any additional information, please contact the Procurement Section.

Interested parties should contact:
